“The thinking that got us where we are today, is not the thinking that will get us where we need to go tomorrow”

Albert Einstein

We firmly believe that people are the greatest and most valuable assets in organisations today, and as such appreciate and champion the principle that every company's future success lies significantly in how they invest, nurture and develop their people. We believe this should be amongst every leader's highest priorities. People can make or break any business or corporation.

WHY WE DO IT?

Many staff are placed into leadership and key operational roles with little, if any, adequate training or development. Consequently, few managers or leaders know how to create an environment of respect, support, encouragement, creativity, inspiration and trust. As a result, few goals are ever reached.

Phil Gray Consulting believe all staff should be engaged, equipped, supported, rewarded, empowered, fulfilled and retained.

HOW WE DO IT?

We help your team gain understanding as to why they do the things they do; why they behave as they do in certain circumstances. We help them become aware of the 'team dynamic' that will help develop the team and lead them to the full potential of their natural skills and talents.

WHAT WE DO

We provide a combination of profiling and workshop training modules specifically designed for your staff, relevant to your industry. Your staff will grow and mature, in turn expanding and building your business for you.

Our extensive experience in training leaders and staff combined with an excellent range of proven training products will generate outstanding results.

We provide over 100 Training Workshops in areas such as:

- › Financial Management
- › Human Resources
- › Managing Conflict
- › Personal Development
- › Relationship Management
- › Risk Management and Compliance
- › Sales and Marketing
- › Strategy and Planning
- › Training and Development

TESTIMONIALS

Wynand De Kock, Principal; Cheryl Osment, Executive Director of Operations, Tabor Victoria

“ Tabor Victoria participated in a Strengths Finder Workshop which was ably led by Phil Gray Consulting. I think it was a great day for our staff. It was both helpful and liberating to be encouraged to focus less on our weaknesses individually and corporately and to really celebrate and enhance our strengths. We look forward to implementing what we have learned as we move forward in our strength as an organisation, specialising in Transformative Education. We would encourage most any organisation to embark on a similar journey with Phil Gray Consulting.”

Matt Balogh – Managing Consultant, McNair Ingenuity Research, Sydney

“ Phil knows his stuff, is bursting with energy, and will unquestionably be able to assist your organisation.”

Matt Bodman – Operations Manager, Australian Christian Channel

“ Phil's commitment to excellence and his personal drive and passion resulted in much positive change. Phil is one of only a couple of people I have had the privilege of working with who has such a thirst for moving forward.”

Deeann Natividad – Regional Manager QLD/NT, Mission Australia

“ I have found my mentoring experience with Phil Gray to be a journey of uncovering who I am and how I got to be this way. It helped me identify my strengths and how I can best use them to achieve more in my work and personal life. I am grateful I was able to have this experience.”
